SAMPLE DATA - for demonstration only, not a real site

Heat safety compliance report

Sample site (Chennai) | 2026-05-01 to 2026-05-31

Days covered	31
Days with a heat plan	31
Days with a stop-work window	28
Plans approved	25
Plans overridden (with reason)	1
Plans with no response	5
Midday re-check alerts	0
Breaks logged by workers	362
Symptom reports (count only)	10

Overrides and reasons

2026-05-13 stricter: Concrete pour moved to morning

Record integrity: hash chain verified

Last record hash: cbefbd93ff2b6bd04bc975bb542747fe980070c4725b6852bbf9e73aa50c2eb3

Daily records are SHA-256 hash-chained and stored in S3 Object Lock. Counts only; no worker names or IDs are kept. Plans use WBGT (heat, humidity, sun, wind) against NIOSH limits; rest bands are the project's own planning rule. Designed to reduce exposure; not a medical record.
